Welcome to our 53rd Annual Production Sale.

It's a great time for gathering of many friends, old and new. In this fast age, getting around to see and visit throughout the year seems sadly impossible.

Over 20 years we have been feeding steers and some heifers from our commercial herd with Poky Feeders in Kansas. Tracking individual carcass data has enhanced our breeding program throughout both herds. For several years additional loads of Apex steers are being purchased by repeat buyers. Their feedlot performance on gain and carcass is exceptional.

We are offering 110 bulls and 160 heifers produced by 80+ years of a solid foundation, time-tested cowherd in Northern Montana. Their performance was remarkable on very dry grasses, and long trips to water, while skirting around the wolves and grizzlies.

All bulls were DNA tested for parentage and Genomic Enhanced EPDs-Angus GS. Dr. Steven Hjartarson has evaluated the bulls, and they will be scrotal and semen tested before the sale. The bulls and heifers have been videoed and can be seen on Northern Livestock Video Auction.

Thank you all for your continued friendship, partnership and support

Sincerely,
From all of us at
Apex Angus

His progeny are distinguished by exceptional muscle expression and massive internal dimension. Beyond their elite performance on the scale, his daughters inherit a superior maternal design, ensuring longevity and productivity in the cow herd.

Selling First 160 FANCY SOLID FOUNDATION OPEN HEIFERS

These first-class very feminine deep bodied heifers carry peak performance cowherd building traits. Moderately framed, quiet dispositions, and Added-Value carcass returns.

Our vaccination's program is directed by Dr. Steven Hjartarson, DVM. Bangs vaccinations - December.

Compiling Superior Outcross Genetics

Apex's battery of high performance natural service sires are used in both cowherds. When making Herd Bull Selections within herd and/or introducing outside genetics, Apex's decisions are based on the bulls ability to gain, soundness, scrotal development, docility, conformation and a good strong maternal background.

The Apex Angus cowherd does quite a quick turn around. At 15 months of age heifers and yearling bulls are in the breeding pastures. The steers are already on the kill floor furnishing PRIME and CHOICE carcasses.

The bulls and heifers offered in the 3/3/26 sale will keep on doing for you what they've done for years for Apex Angus, an honest and trustworthy job.

FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$5,000.00 or more will be covered 50% by Apex Angus if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as a 60-day period following the first turnout of bulls. Fifty percent of the value of the injured bull, minus one-half the salvage value, will be given credit in a future Apex Angus sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Apex Angus and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 2, 2026.
